GIS Web Developer Intern

We are seeking a GIS Web Developer intern to develop geospatial based applications and solutions for resource management planning.

The successful applicant will be working closely with CRIBE's partners on the development of new web based resource planning applications.

Qualifications:

- Experience with web programming using HTML5, CSS3, JavaScript, TypeScript
- Experience with Esri ArcGis API for Javascript is a plus
- Ability to work independently and within a team environment
- Strong communication skills and ability to work with a diverse group of people
- Excellent written skills and proficient with public speaking

Additional Skills

- Experience in GIS programming and scripting tools with ESRI software including arcpy and geoprocessing tools is a plus
- Experience with network (routing) datasets and performing analyses on network datasets is a plus

The position is for an initial 6 month period and the successful applicant must be under the age of 30 at the start of the contract and be a Canadian citizen, permanent resident or granted refugee status.

The position is based in Thunder Bay Ontario.

Please submit a cover letter and resume electronically to ceo@cribe.ca by August 9, 2019.
